

Hydra touch H₂

Aqua Handpiece

Aqua Peeling Effective Cleansing

Aqua handpiece with Vacuum technology and specialized radial tips to exfoliate, cleanse pores, and dissolve impurities without skin irritation. Uses specialized solutions to cleanse, hydrate, and nourish the skin.

Small Tip

Large Tip

H₂ Care Skin Revitalization

Equipped with an H₂ module that generates and directly penetrates high concentrations of hydrogen water into the skin. Strong antioxidant effects by removing harmful active oxygen in cells that cause aging.

Solution

Aqua
Removes comedones
(skin bumps)

H₂
Removes & treats
blemishes, redness, acne

Hydrogen
Deeply hydrates
& revitalizes

Y Handpiece

Kneading Massage Double Lifting

Y handpiece uses a 1 kHz Medium frequency to stimulate and improve blood circulation. 360-degree rotating kneading ball design provides muscle massage, activating lymphatic circulation, skin tightening, and lifting effects.

Electroporation Handpiece

Electroporation Effective Solution Penetration

Electroporation technology uses high voltage electric pulses to temporarily open holes in the skin and effectively allows penetration of active ingredients. Safe and effective by penetrating various solutions into the dermis without damaging the skin cells.
